News of the Day Was Generally Bullish and Wheat Advanced.

DRY WEATHER TALK CAUSED STRENGTH

Corn Was Rather Quiet but Generally Firm Within a Five-Eighths Cent Range - trats Were Active and Decidedly Firmer.

CHICAGO, June 4 .- The news of the day was generally bullish and wheat advanced %c, closing with %c gain. Corn closed %c higher for July. Oats finished strong, %c higher for July, and provisions closed practically unchanged.

The range in wheat was %c. Opening trades showed from 1/4c to 1/4c advance, and almost imendiately sold up another %c. reacted %c and closed steady. The early strength was attributed to the liberal degrease on ocean passage of 1,320,000 bu, and to dry weather talk, the steadler European gables and to advices from the other side that shipments of Argentine wheat were falling off. Room traders bought at the start, while offerings were very limited, but on a little realizing the price sagged, but rallied later when the visible supply was announced showing a much larger decrease than anticishowing a much larger decrease than anticipated—1,935,000 bu. Reports from the west—Iowa and Kansas mainly—stated that rain was needed badly in many sections and crop prospects were not at all bright. There was also injury in Tennessee and Missouri.

Corn was rather quiet, but generally firm, within %c range. Receipts under the estimate and unfavorable crop reports were the strengthening factors.

mate and unfavorable crop reports were the strengthening factors.

Oats were active and decidedly firmer on reports of dry weather and covering by shorts. Prices advanced from %c to 1c, and finished near the top.

Provisions declined slightly at the start on

Provisions declined slightly at the start on heavy hog receipts, reacting later on a scarcity of offerings. The market was very dull and slow. Compared with Saturday night July perk and ribs are unchanged and July lard 5c lower.

The demand for vessel room was light, but rather steady at 1%c for corn to Buffalo

and 14c to Port Huron.

The leading futures ranged as follows:

Minneapolis Grain Market.

Minneapolis Grain Market.

Minneapolis June 4.—Grain trading today was chiefly of the scalping order. There was but little outside business except in the way of closing up some old transactions. There is no large amount of short wheat held in this market now, apparently such as has been sold against actual cash wheat held in store either here or in the interior. There was some selling against purchases in the country, which are rather liberal. The opening price of wheat was 4,c to 4,e higher than the close of Saturday for the different months and later there was a small advance of 4,c to 4,c in the price of July and about 4,c in the price of September, but both weakened later and sold off, as there was no apparent buying except by scalpers, and these had taken all they wanted before the iniddle of the day. Then there was more or less selling of previous purchases, and the market declined, closing about 4,c to 4,c higher than Saturday for futures, with cash wheat selling at about the same price as the previous day. A rather large decrease in the visible samply had a tendency to harden the market, and also reports from many places indicating too dry weather lent support. The extremely low prices prevented short selling to any extent, and the numerous disappointments of these buying for long account kept them out of the market, so that business was very dull and but little larger than on the previous day. Receipts of wheat were 204,180 but; shipments, 20, -

150 bit. Such liberal arrivals, and apparently all coming from fresh receipts in the country, was a weakening feature, as these fresh country receipts in interior elevators are larger than had been expected. The market closed: June, 574c; July, 57445574c; September, 505554c; on track, No. 1 hard, 604c; No. 1 northern, 55c. No. 2 northern, 574c. The local flots, mills were actively employed and the preduction for the day was estimated to reach about \$2.00 bits, and with a possibility of exceeding that by 1,000 bits, shipments were \$3.731 bits. Prices remained steady at \$3.30 to \$5.50 for patents and \$2 to \$2.50 for bakers.

ments were 25,21 buls. Prices remained already at \$1.30 to \$1.50 for patents and \$2 to \$2.30 for balars.

Receipts at Minnappolis for the week, according to the Market Record, were 735,800 but; Duluth, 143,221 bu, making a total of \$10,00 bu; Duluth, 143,221 bu, making a total of \$10,00 bu; Duluth, 143,221 bu, making a total of \$10,00 bu; In private 1,000,000 bu, the same week last year, and 1,500,000 bu, the same week two years age. There are now in Minneapolis regular houses \$52,000 bu. In Minneapolis private houses, \$75,700 bu, a decrease for last week of \$5,000 bu. In pivate houses and 23,000 bu; in country elevators, leaving approximately 2,210,000 bu, the larger country elevators. The total supply in the northwest including Minneapolis. Duluth, Superior and country elevators, is 21,74,000 bu, against 20,300,000 bu, last year at this time. There was a total decrease of wheat supplies in Minneapolis in both, public and private elevators of 190,000 bu, during the last week. The same authority estimates the marketing by farmers in the, northwest of a little niner than \$50,000 bu, last week, which is larger than half been expected. There is a prospect of about 190,000 bu, a day to be marketed this week by farmers.

HOGS-The supply

MONDAY, June 4.

lation was the unexpected decrease in the St. Paul earnings for the month of May. A loss of \$200,000 at least had been anticipated, and when only about half that amount was reported the short interest in the stock was a triffe scared and began to cover. Purchases for the railway list in general were also stimulated, but the industrial stocks did not sympathize in the movement, except Tobacco, Distilling, Lead and Cordage. Sugar bacco, Distilling, Lead and Cordage. Sugar was notable weak, and on neavy sales, said to be mainly to realize profits of the recent advance, declined 2% per cent, to 102%, the lower figure including purchases, which caused a recovery of 2% per cent, but in the final dealings another selling movement was developed which resulted in a reaction of developed which resulted in a reaction of 1 per cent, the last sale being made at a de-cline of 1 per cent on the day. Burlington was not largely dealt in, but was bought moderately for the Boston account and rose moderately for the Boston account and rose in per cent, reacting 34 per cent in the later dealing. Northwest gained 34 per cent and Rock Island 34 per cent. In the rest of the list the volume of business was light, but during the greater part of the day the dealings were strong in tone. Toward the close, however, an easier tone prevailed and the market closed slightly heavy. The bond market was generally firm.

market was generally firm.

The Evening Post says: The bulk of to day's transactions were, as usual, confined to a few stocks, the changes elsewhere being made on small tradings. All told, today's advance was considerable, and the fact that Sugar and Chicago Gas hung back was neither surprising nor unfavorable. The Post's London cable says: The stocks were today about steady. The chief feature was a further rise in gilt-edge stocks and the recovery in Americans. The last named closed at the best figures. Louisville made

the chief gain. It is expected that there will be trouble in the grain trade here, but no failure is yet announced. Half a million pounds in gold is coming from India. This is important as it strengthens silver. India exchange is rising.

CHICAGO LIVE STOCK

There Was a Firm Cattle Market but No Advance Was Made. CHICAGO, June 4.—There was a firm cattle market. Not much advance was made, but the trend was in that direction. For the time of the year the receipts were about an average, but the supply for last week was light and as the outlook for this week is for moderate arrivals there is a feeling of confidence among operators generally. Trim well fatted steers in many instances sold from 5c to 10c higher than last week and there was no grade for which it last week and there was no grade for which it was not easy to get former prices. Of the arrivals all but about 1,000 head were natives. They sold on a basis of from \$1.55 to \$4.75 for common to extra cows and helfers. Sales of steers at over \$4.50 were few nor were there many bunches of cows and helfers. Sales of steers at over \$4.50 were few nor were there many bunches of cows and helfers that were good enough to bring as much as \$1.75. From \$4.50 bought mest of the siters and from \$2.50 to \$1.50 was the range at which most of the cows, helfers and bulls were weighed. The 1.000 Texas cattle on sale were taken at full prices, meeting a fair demand at from \$1.75 to \$4.40, according to quality.

The top of the heg market at the opening of business today was \$4.75, and the bulk of the early business was done at from \$4.60 to \$4.70, a deedline from Saturday's quotations of 5c. The trade had not long been in progress before a reaction set in and before 3 o'clock the morning's loss had been fully recovered, the closs being active and strong at Saturday's range. Receipts were large, having been equalised barely half a dezen times since 1822, but with shippers and packers both actively engaged, sellers had not left over any very considerable number. From \$4.50 to \$4.55 for common grades sales ran up to \$4.75 for assorted light and \$4.80 for choice heavy.

In sheet there was a dull market. The refrigerator men are said to be carrying pretty full stocks and they are indifferent buyers and as there was no considerable demand from any other source sellers were unable to hold the market up. There was a rag of from 5c to 10c and a drop to from \$1.50 to \$4.55 for poor to choice sheep, and to from \$1.25 to \$4.90 for yearlings. Spring lambs were quoted at from \$3 to \$1.25.

Receipts: Cattle, 15.000 head. Market opene! 10c lower, but closed with loss regained, actives, 300 head; they, \$4.000 fead; now, \$4.000 fe.30.

Higgs higher on halives there, \$4.000 head.

Hous have to extra n was not easy to get former prices. Of the arrivals all but about 1,000 head were natives

to very good 1,000 to 1,150 lb. steers brought from \$3.75 to \$4.10. The trade was tolerably lively from the start to finish, the feeling being firm throughout. A good early clear-Good fat cows and heifers were in active demand at strong prices, while the common and canning grades ruled dull, although prices were not quotably lower than last week. The general calf market was weak

week. The general calf market was weak and on an average about 50c lower than a week ago, except perhaps for the best veals. Rough stock of all kinds continues in fair request at good firm prices.

There was not a very rushing trade in stockers and feeders, but prices in general were firmly held, sales of fair to good stock being largely at from \$2.85 to \$3.15. The demand was not overly brisk, but as the supply was not large the feeling was firm on all sides. Good to choice feeders are quoted at \$3.00@3.40, fair to good at \$2.80@3.00, and the commoner grades at from \$2.80 3.00, and the commoner grades at from \$2.80 down. Representative sales:

## CONCERNING THE CLEARINGS

Figures Furnished by the Associated Banks as an Index to Business.

MAY'S RECORD BETTER THAN APRIL'S

-Three Years Compared-What the Figures Indicate-Will Be

Better in July.

The bank clearings for the month of May show an increase of about 4 per cent over April, and are larger than for any preceding month since January. When the comparison is made with May a year ago the figures do not show up so well, there being a decrease for the whole country of 26 per cent. The decrease shown in April from a year ago was only 25 per cent. There is still a strong tendency toward a decrease as compared with last year at all the leading business centers. New York leads the list with a decrease amounting to 30 per cent, as against 20 per cent for the balance of the country.

The following will show the total clearnings for the month of May, 1894, 1893 and
1892 at Omaha and surrounding cities:

INDIANAPOLIS, June 4 .- Judge Baker in the United States court today overruled a motion for a new trial for the wreckers of the Indianapolis National bank, and sentenced F. A. Coffin to ten years, and Percival B. Coffin to five years in the penitentiary. The sentence of Albert S. Reed was suspended. It is believed he will not be suspended. It is believed he will not be sent up. T. P. Haughey, president of the bank, will be sentenced tomorrow.

Reed was released on his own recognizance. Attorneys for the Coffins announced they would apply to Justice Harian of the United States supreme court for a writ of supersedeas this week, and ask that their clients be not sent to prison until this could be done. Judge Baker said the sentence was in the bands of the marthe sentence was in the hands of the mar-shal for execution, and the court would not interfere with it.

The Coffins will probably be taken to the penitentiary this evening.
